BUSINESS INTELLIGENCE ANALYST

GANNI is growing rapidly, and we are therefore looking for a highly energetic and passionate professional to join our Business Intelligence team. We are looking for a professional that will be able to drive business performance through valid and transparent reporting. The focus of the newly created position is directed towards GANNIs digital universe.

You will work closely together with stakeholders, such as PR, marketing, e-commerce and wholesale managers, to understand the strategy, challenges and opportunities. Your value-adding reporting and analysis will ensure that decisions are quantitively founded and will support the further journey and development of GANNI.

To succeed in the role, it is key that you enjoy digging into data and have a natural understanding for online behavior. You must possess great stakeholder management skills, and be able to communicate findings, explanations and provide guidance to stakeholders at all levels of the organization.

You will have the opportunity to contribute to the development of the job and have a high degree of influence on your tasks. Responsibilities will include:

- Development, managing and maintenance of reporting, focusing on social media, online marketing and e-commerce
- Increasing the use of data in the daily operation
- Ongoing development and maintenance of BI-tools
- Ensuring data quality
- Delivery of ongoing support to stakeholders
- Being responsible for all parts of the merchandise flow to own e-commerce, including:
    - o   Merchandise planning,
    - o   Execution and controlling of purchasing,
    - o   Analyzing and follow-up in-season performance (including, but not limited to, managing of return levels, stock-levels and ensuring a healthy replenishment flow)

We offer you the chance to be a part of a growing global company, where there is no bureaucracy and time from idea to action is practically non-existent.

We imagine that:
- You hold a relevant university degree, and have 1- 3 years of experience
- Excel is your best friend
- You have a natural flair for it-systems and preferably experience with BI-tools
    - o   Experience with Google Analytics and Dash Hudson is preferred but not required
- You are highly analytical and possess a commercial mindset
- You are structured, service minded and result- and detail oriented
- You, as a person, are proactive, independent, trustworthy and easy going

As we interview candidates continuously, we kindly ask you to send us your CV and application as soon as possible to job.bi@GANNI.com.
